Making pottery on the potter's wheel is called "throwing". The thrower is a very skilful workman. But there is another method of shaping articles out of clay, 'moulding'. A plaster mould is made and the clay is pressed into it. This is a quicker and less difficult way and must be used to make things like handles; but all the most beautiful pottery is thrown. When a piece of pottery is taken off the wheel, it is put aside to dry, after which a design may be painted on it with special colours that will stand great heat; it is then ready to be fired. This is done in a large oven or kiln. The pieces of pottery are placed in earthenware tubs called 'saggers' so that the flames cannot touch the pottery.

QUESTIONS :

- (i) What is 'throwing'?
